## Weekly Alumni Updates

Great updates on the blog this week!

Check out what Derby, Tullulah and Hawk have been up to since being adopted!

<https://www.segsprescue.org/alumni-news/derby-tullulah-and-hawk>

We've got so many updates on the Sunday Alum Day blog this week! There is swimming, tree climbing, squirrel chasing, napping... we got it all!

Checkout Chick, Grace, Baci, coco, Dixie & Izzy!

<https://www.segsprescue.org/alumni-news/swimming-tree-climbing-and-napping>

It's SUNDAY ALUM DAY! We are thrilled to bring you updates on four recent alums. Goose, Paleo, Luna & Willow are all doing amazing in their forever homes.

Check it out here:

<https://www.segsprescue.org/alumni-news/>

It's Sunday Alum Day which means there is a new blog post up!

.This week we are celebrating Cooper, Cash, Trigger & Gauge, Boone, Rush, Sky, Woody, Moose & Bria having their one year Gotcha days!!!

We also have some great tips for what kind of things we are looking for to keep this blog going. Check out the fun ideas!

And remember to send your alumni updates to [segspalumninews@gmail.com](mailto:segspalumninews@gmail.com)

<https://www.segsprescue.org/alumni>

Pupdates.  
Get your pupdates.  
Read all about it.

We've got Chick & Grace, Walker, Louie and Mattingly all on the Sunday Alum Day blog this week.

They are super cute. Don't want to miss this!

# Announcements

Let's start the day out with a smile...

July 11th is National Swimming Pool Day.

Crazy, huh?! The holiday description below made us think of our former Calendar Contestant Duckett :-)

Happy swimming!

July 14th is Shark Awareness Day.

Face your fears like our sweet Alum Cocoa did (on land of course)!

“ ... it's not just a celebration of swimming pools but also of all the paraphernalia that accompanies pools, such as pool toys, accessories, and swimwear.”

This is the time of year when so many dogs are lost or found.

Fireworks are the #1 cause, but it can happen to anyone at any time - you turn your head for an instant and your loving GSP has taken off after a small creature and doesn't come back. Please visit our website and take a look...you might just reunite a family!

Lost Dogs: <https://www.segsprescue.org/lost-gsps>

Found Dogs: <https://www.segsprescue.org/found-gsps>

.Let's reunite these pups with their families! Thank you for sharing...

July 19th is Stick Out Your Tongue Day.

Photos please!

It's National Hammock Day!

Take a moment to relax with your best friend today... that is if you can get them to be still!

# Announcements

The temperature is soaring, summer is in full swing and hopefully everyone is enjoying themselves. But it's also HURRICANE season.

We all hope there are none, but just in case, the best defense is a good offense. BE PREPARED... for yourselves and the fur babies!

Thanks to the Humane Society of Manatee County for this great article (<https://www.humanemanatee.org/resources/hurricane-preparedness/>), which includes a comprehensive list of things that should be in your "go bag" for you and your pets.

If you are lucky, you can get your GSP to carry his own bag.

Remember to print out the list, keep it on your fridge, and don't forget to pack the toys. Stay safe!

If you're interested in helping this beautiful breed, ...

sign up to be a foster.

Did you know that one month of fostering can save a dog's life?

We really need your help - without foster homes we have to turn away dogs.

Thank you to all of our foster volunteers - fostering can be difficult at times, but oh, so rewarding!

<https://www.segsprescue.org/volunteer#germanshorthairedpointer>

## Editor's Favorite Photos

From time to time I'll select the best photographs sent in by our K9 lovers. There are no specific criteria but I'll look for photographs that tell a story, depict an emotion, shows outstanding photographic techniques, or something that strikes a chord. My husband and I have had GSPs since 1994 so we're experienced any number of memorable moments.

# New Adoptions

It's hard for Dudley's foster mom to get him to stand still long enough to take a photo, but she finally succeeded!

And he has BIG news ... he loves his foster family so much that he is staying right where he is

Dudley's mom Katie said,

I'm a total foster fell and am in love with him! He's 100% done with treatment and goes back in October for one final scan! His name is now officially Dudley Do Right LOL!! And our other pointer is in love with him!"

Congratulations Katie, Tom and Dudley!

Nash has finally found his forever home!

Nash's new dad Jerry, who lives near Nash's foster parents, has been getting to know Nash for a while now and when Jerry pulled up to pick him up, Nash went ballistic. His foster mom Cheyenne said,

"I was anticipating his normal excitement when someone comes in the house but this was a whole different level. I rode with Jerry to his house to help contain Nash's excitement and as soon as Nash got in the backyard with Jerry he was over the top excited all over again. He has gotten so attached to him in such a short period of time. It makes me so happy.

Jerry said it really only took him a couple of days to settle in and get past the anxiousness. He's still learning the dos and don'ts in a new house but overall is doing really really well and they've gotten into a good routine.

I love my dogs more than anything in the world and my entire life revolves around them to the point that people think I'm crazy but there was just something so special about Nash. At the end of the day I think he landed right where he was meant to be.

*Cheyenne's comments about fostering...*

*"Fostering is so much different than I expected... so much more meaningful and emotionally so much tougher... but so incredibly worth it. We got the email to foster Moose not long after we signed up and I remember calling my husband so excited and I told him we had to foster him because we may never get another chance to foster again. I never could have imagined how big the need was."*

*Thank you Cheyenne and Joshua – you were just what Nash needed and we're excited that you'll be able to see Nash from time to time. We look forward to updates. Congrats Jerry and Nash!*

# New Adoptions

Jake has found his forever home!

**Jake,** known for his love of ice cubes, is doing great in his new home. This boy loves everyone including cats, but is over-the-top in love with his new family.

*Congrats to Jake and the Howard family!*

Tag is on top of the world because he has found his forever family and it's right at home with the Moores, his foster family.

**Tag** is on top of the world ... . His mom Ashley said,

“ Our SEGSP story begins with putting in an application for adoption. Our family wasn't chosen for that particular GSP, but we were given the option to be foster parents to another.

We were concerned with getting too attached and then having to let our foster doggie move on, but that wasn't the case when it was time to find him his forever family. We found the most wonderful and loving family for him and there was no hesitation for us. We are still able to hear updates and see pictures of him and it fills our heart with joy knowing we made the right decision for him.

We had the opportunity to foster for a 2nd time very quickly, but we weren't sure we were ready. After seeing some pictures and hearing his story, we knew he needed US, specifically. What we didn't know at the time was that we needed him more.

His name is Tag and he is my best friend. I am his mom and I couldn't imagine our life without him. He is my little tagalong. We do everything together every day. He is the ultimate Velcro dog and I love every minute of it. If I stop walking mid-stride, he bumps into me. That's how close we are. He loves me, my husband and my children unconditionally, and that feeling is reciprocated right back to him. He is the 4 legged baby we didn't know we needed. Our life is complete with him.”

*Tag hit the jackpot with the Moore family and his four legged brother, Ducky. They are two peas in a pod and seem as if they've been together forever. Goodness, we just love happy endings like this! Thank you so much for fostering and adopting.*

# New Adoptions

Tucker (TN) has important news to share! He has chosen his forever home and it's right where he has been, with his foster family!

**Tucker's** dad is a SEGSP volunteer who originally transported Tucker and 9 other puppies from the hoarding situation. From the moment his foster family met him, they knew he would be a perfect addition to their family and they knew he likely wasn't going anywhere.

Tucker is a handsome boy, is very smart, and is one of the most calm, sweet, and well-behaved puppies his foster family has seen. He even loves the resident cat!

Tucker is inseparable from his three human siblings and his four-legged brother, 2020 SEGSP alum George. Tucker loves car rides, swinging outside, shopping for treats, and whole-body tail wags when meeting new friends.

*Tucker, we are so happy for you and for your new family. Seems like a perfect match to us!*

Glen, now Bobby G, is adopted

**Glen,** one of the 10 puppies from the hoarding case, has decided he really loves it right where he is... with his foster, now forever, family! And what better way to celebrate, then with a little ice cream.

*Congrats to Marjie, Richard and Glen (now named Bobby G)!*

Cash is adopted!

**Cash,** one of our 10 puppies, has found his forever home and celebrated with a fun day at the pool! A huge thank you to Cash's foster parents, Marjie and Richard, for preparing Cash for this day.

*Congratulations to Cash and the Freeman family!*

# New Adoptions

Tempo, now Tempí,  
one of the TN puppies,  
has found her  
forever home!

Tempí's foster mom Vicki said,

“ If you don't believe things happen for a reason, you are about to. Tempo aka Tempí came to stay with me temporarily but once she arrived the rescue decided she could use some more socializing so I began her training. She was fragile and terrified of the world so we exposed her to everything we could and put her on a high protein diet and she flourished.

A couple of weeks later she was ready to find her forever home. I received an email from one of the volunteers that helped transport Tempí and her sister to their first foster home. They wanted to keep Tempí then but were still grieving the loss of their Senior GSP and knew in their hearts they couldn't give Tempí what she needed at that time.

So, when Tempí came back up for adoption it was fate and they immediately sent me an email. I knew right away that someone who is willing to put a puppy's needs before their own like Beth did the first time she met this tiny blue eyed baby was exactly where Tempí deserved to be.

She deserves parents who put her above all else because this little girl had already lived a tough life. Tempí and I set off on a rainy Sunday to meet her new mom, who didn't think twice about driving from TN to get this little girl once again, but this time it's her last transport because she has finally found her forever home.

I can't explain in words how Tempí is going to change their lives forever because this little girl is pure happiness and fun. Life will always bring us just what we need in the exact moment we need it. This is the perfect example. We love you Tempí; you go and rule the world little girl because you are the strongest little girl I know.”

*Congrats to Tempí and her new family Beth and Tanner...and thank you to her foster moms, Tonya, Jill and Vicki, for helping Tempí along her journey!*

# New Adoptions

Isabella, aka Izzy, has found her forever home!

Isabella now has loving parents Ellen and Matthias as well as her new brother Crash to play with. His new mom said,

“ We so enjoy having Izzy as a part of our family and she and Crash play together nonstop and bring us all so much joy!”

A big thank you to her foster dad Dylan for helping Izzy along her journey to her forever family! We look forward to updates!

Winnie has made her choice for her forever home with the Furr family.

Winnie is adopted. After carefully reviewing dozens of applicants, Winnie, one of our puppies from the hoarding case earlier this year, has made her choice for her forever home with the Furr family.

Winnie's new mom said,

“ We have had a great first weekend with Winnie! Everyone is adjusting well. She had a blast playing with our son outside with the water. She is so sweet and snuggly (after getting all that puppy energy out of course)! We are so thankful to have been picked as Winnie's forever family. We knew we had to apply for her the moment we saw her adoption picture. We have one 11-year-old GSP already and they are truly a special breed. We knew we wanted to get another one when it came time to grow our family and find the dog our six-year-old son would grow up with. SEGSP Rescue has been wonderful through the whole process from communication, coordination and the care they have for their dogs. I am so glad we are now officially part of the SEGSP family”

*Winnie, it looks like you are fitting right in. And we know your big sis, Edy, is going to enjoy showing you the ropes. We are so excited for Winnie and are so grateful to the Haynes family for fostering her and loving her these last few months.”*

*The group photo has foster mom and brother on the far right and new mom, dad, brother and fur sister on the left. Winnie is so lucky to have such a wonderful circle of people that love her, and she gives the love right back! Congratulations*

# New Adoptions

Ms. Willow  
(SC) has  
found her  
forever home!

Willow's foster dad said,

“ The Bennett family drove up from Alabama eager to meet her. Once here we knew this was the perfect family for her. She enjoyed the long trip back with plenty of naps. They said she is settling in nicely and I'm sure she loves her new home. Willow grew so much the time she was with us, and the patience paid off. Excited for her new life and home where she will be so loved and spoiled.”

*We're also excited to hear updates since they plan to train Willow as a therapy dog! How exciting! Thank you, Darrin, for helping Willow find her forever home. And congratulations to Willow and the Bennett family!*

Felix has found  
his home!  
And he didn't  
have to go far.

Felix's former foster mom said,

“ Felix, now Boone, was already on the adoption page when I figured out I'd made a mistake. We were walking our normal around the river path when he approached an older man sitting on a bench. Boone sat down next to him and allowed the man to pet him without saying anything. He's a wonderful dog and is a wonderful brother to both Sadie and Lily. He will keep me active along with his sister and they will keep each other occupied when I can't be with them. Thank you SEGSP for allowing me to adopt such a great dog.”

*Thank you, Gigi for being an amazing foster mom and now, forever mom. When it's meant to be, it's meant to be. We are so happy for you and your four-legged family.*

We are so thrilled to  
announce  
that Rye  
has found his  
forever home!

Rye's new mom said,

“ We met Rye by chance with his foster mom, and within a few minutes of playing with him we fell in love. He was so sweet and well behaved, and when we found out he was up for adoption we knew it was meant to be! We had been waiting for the right time to adopt a dog and all the stars seemed to have aligned! He has already brought so much joy to us and we are so thankful we were chosen to be his forever home!”

*Rye, we couldn't be happier for you and your new family-and for that chance meeting! Special thanks to his foster family, the Richardsons, for fostering him and carefully pouring over all of his applications to make sure the ideal spot for him was chosen. We can't wait to see Rye continue to live the best life ever in his new home.*

# K9 Foster News

**Ann (GA)** is having fun hanging out with her foster mom Sarah and canine siblings. She's still working on her canine manners and behavior with other dogs. Word has it she had a little vacation so we're looking forward to photos.

**Buck (NC)**, aka Jax, is about 8 months old, is doing great and constantly learning new things. His foster mom Sandy said, "He thinks the bird feeders were put out for him so he can have an endless supply of birds to chase, lol!!! He's learned sit, shake (already had a paw thing going so we turned it into a command) and rest. Still working on holding our peepee and going outside. Does not like the crate at all during the day, but sleeps silently in it all night. He goes to the vet again in 2 weeks to get his neutering area looked at again - on antibiotics and just finished Rimadyl for a potential seroma. Vet will determine the next course of action then. He is definitely a puppy and thinks everything is supposed to be for his mouth, so he is watched constantly. He has become a fast playmate for our 2-year-old GSP and has quickly stolen our hearts." Thank you Sandy for fostering Buck – we know the young ones are more challenging.

**Buddy (GA)** loves to run, to carry toys around in his mouth and actually goes in his crate for quiet time on his own. We know Buddy plays well with others and will need a young playmate. He's a big fan of playing fetch and running but wants you to watch him. Denise says he is so sweet, loving and funny - he will drop any of his many toys at your feet when he wants to play. Buddy is healthy so will be ready for adoption once he's healed from being neutered. Thank you Denise for helping Buddy along his path.

**Callie (NC)** has been one of our hospice dogs since 2018 when she made her way to rescue after being hit by a car. Sadly, she has developed an ulcerated oral melanoma and unfortunately, the only way to remove it is removing part of her jaw, which at her age is not an option. She is on antibiotics and is a tough gal, so is managing as best she can. Callie has been in rescue since 2018 when she made her way to rescue after being hit by a car. She recovered from April surgery to remove a nerve sheath tumor on her leg, and continues to live a very loved life with her foster family. As always, we are so thankful to Megan and her family for fostering and loving her.

**Daisy (NC)** is 8 years young and was rescued from a shelter in NC by a Good Samaritan and we were contacted. Sadly, she is heartworm positive. On a happy note, her foster mom Jacqueline says Daisy loves everyone, including all dogs (and cats!), loves exploring the backyard, is great in a car and on leash, and has perfect manners too. She's also a great walking buddy (walks 3 miles every morning with her foster mom) and hasn't had a treat she doesn't like. She will need 4 months in rescue to get healthy then can search for her forever family. Thank you, Jacqueline, for stepping up to foster Daisy during a time we are sooooo low on foster homes.

**Dolly (AL)** is in the last month of her heartworm treatment and so very ready for the exercise restriction to be over soon. She goes back next week for her bloodwork to see if she is now heartworm negative. Her foster mom Robyn said, "She is still a big goofy snuggler who wants to be your best friend. She loves being around her people. She is very smart and is continuing to work on her manners... sit/stay and place when people ring the doorbell. They are a work in progress, but she loves a job!" Thank you Robyn and Adam for fostering this sweet girl through her treatment!

**Elle (FL, aka Elli)**, is getting along great with her foster dogs, cat, donkey and horse and loves all size humans as well. Her foster dad said, "Ellie runs and runs the fenced three acres around the house with our GSP. Then she sits quietly during my wife's yoga classes. She sleeps quietly at night on her blanket. She loves it here. She is very loving." Thank you Ernest and Knan for loving Ellie and preparing her for finding her forever home.

# K9 Foster News

**Flapjack (GA)**, aka Jack, had a couple rechecks at the vet after having been on antibiotics for seeping wounds and he is now OFF MEDS – yaaay! He came to rescue with bad calluses, bleeding paws, was skin and bones, and slept a lot. His dandruff and rashes also have resolved, and his coat is much improved and quite sleek! The vet says he likely will have some permanent scarring on both sides of his rump and on his tail from the sores, but the fur is slowly but surely filling in around the scars. He's still a really handsome boy! He's also now housetrained, doing great on leash walks and learning new commands (super smart). And believe it or not, he does fine with cats! Now...some work on curbing his counter-surfing urges LOL! Flapjack had a rough start, but with his foster family's help, he's not letting his past hardships get in the way of the wonderful future he deserves. Thank you Leanne!

**Founder (AL)** is on our website looking for her forever home. She is 2 years old and has been working on her leash and listening manners a lot and is doing very well with her "heel" command. She loves water, meeting new friends, cuddling and being outside in a fenced yard (to watch the critters). She likes to be the lady in charge so she wants only male dog siblings or to be the only child.

**Gator (SC)**, our blind boy in rescue, did well after his first heartworm treatment injection and will be headed for his 2<sup>nd</sup>/3<sup>rd</sup> injections next week. His foster family said, "He enjoys sleeping inside on soft beds & eating. This chunky monkey would eat all day if you let him. He's definitely got a nose for the treats so must keep out of reach. He goes outside only if he must; he's a bit spoiled & definitely likes the AC." Thank you Leslie and Ray for fostering Gator!

**Georgia (FL)** had her vet appointment and it went well. She is doing well on weight... she's up to 43 lbs, a great improvement. The vet confirmed that she does need to be spayed and that she is between 1 - 1.5 years old. She is HW negative (yay) and she loves to hang out at the show lamb pen with some of her favorite friends. She likes to try and play with them. Too cute!

**Gia (FL)** is adjusting very well. Her foster mom Tanya said, "She lives to be outside hunting anything that moves. She is very sweet to people but a little protective over food and water bowls and other dogs." More to come on sweet Gia...

**Gunther (AL)** has finished his heartworm treatment and is working on his adoption post. Stay tuned...

**Gus (SC)** has finished his first heartworm treatment injection and is feeling much better. His foster mom said, "He is not a fan of being inactive! So, we have worked on getting him to lay outside. That has enabled us to bring him outside to get a little fresh air and lay in the grass time each night (once it cools off). He gets to have a chew toy. We enforce he has to stay laying down. He is liking that small amount of freedom!" Thank you Barbara!

**Hank (AL)** is having a doggy vacation at Kanupp Kennels in NC to work on some good doggy manners. He's very high energy and when he first came to rescue was nicknamed Houdini. But he's in good hands with Marty and his team and we look forward to happy updates.

# K9 Foster News

**Honey (NC)** is ready to find her forever home. You can see her full story on our website. Honey is 5-months-old, happy, healthy, smart and lovable. She is house-trained, knows basic commands and loves to cuddle and play. Her play style can be overwhelming to some dogs so any dog sibling will need to love to play as much as Honey does (no cats for Honey). She is nervous around strange men and new dogs until she learns they are safe. She'll need a patient family who can handle an energetic puppy.

**Maggie Mae (TN)** has been having a blast hanging out with her foster siblings. She's even been working on diving off the dock. (She's the black one) Her foster sister, Charleigh, is not only showing her how to dive, but how to have great recall and she's following her lead so well! Way to go Mags! Maggie Mae will be in foster care a couple more weeks and then will be ready for adoption.

**Major (GA)** is known as a big cuddly sweetheart. His foster mom Sandee said, "...he is smart and seems to want to please. He's not happy that he can't play fetch due to his heartworm treatment. He's also not happy that he can't get in his kiddie pool to lounge and drink while he waits to have his stitches removed from his neuter last week. However, he's taking it all in stride. He seamlessly worked his way into our lives and our routine, sleeps all night long, eats without fuss, is good in his crate and well potty trained. He has a good bark to signal anything out of the ordinary, but is otherwise very quiet. He's improving on coming when called and we have to keep a close eye on him to prevent counter surfing. He has a really big noggin - if he closes his mouth around a bagel, you can't even tell there's anything in there, lol! Anyway, he's a great guy and has become good friends with his foster brother Rocky. We adore him." Thank you Sandee (and family) for taking such good care of Major while he heals from his heartworms.

**Millie (FL)** is wonderful. She is the bravest girl and has really started to become a puppy! She plays and loves toys!! We are still having anxiety issues and fear associated with the backyard, but she has improved immensely!! She's so happy.

**Nelly (AL)** who is heartworm positive is still searching for a new foster home for her last 2 months of treatment. She is a little too interested in her cat foster siblings and can't continue treatment while excited over her cat roommate. Nelly is a small girl at about 35 lbs, housetrained, crate-trained, good with other dogs and all people, but definitely NO cats. Thank you to her foster mom Beth (also our AL State Coordinator) who we know is exhausted from keeping the two separated. If you're interested in fostering Nelly please contact your state coordinator (listed in the "Home/About" section of our website). If you are an adopter, you are already approved to foster a dog.

**Olaf (NC)** is ready to find his forever home. You can see his full story on our website. Olaf is about 8 years old (perfect age) and is an old soul (chill for a GSP). He is very happy hanging out with his people or going for walks. He knows lots of commands, loves car rides and being with his people. His perfect family would spend LOTS of time with him, no cats, small dogs or small critters (high prey drive), give him lots of love and adventures.

**Pearl (SC)** is our newest hospice dog in rescue. She was injured when she arrived last month. She is about 15 years old and sadly not been treated kindly in her senior years. She has been severely neglected but from now on her foster mom Sally will be treating her like a princess. She has some old scars on her body and suffers from arthritis/osteoporosis in her hind quarters. She was anemic from flea infestation but with meds has recovered. She is undergoing acupuncture to help with the pain. Thank you Sally for agreeing to be Pearl's forever home in rescue.

# K9 Foster News

**Pepper (FL)** is about 3 years old, will be spayed and checked out by a vet soon. Her foster parents Matt and Rachel said, "Pepper is doing great! She's loving life! Totally spoiled. She is an absolute maniac about playing fetch and gets along great with the kids and her dog sister Liberty." Thank you Matt and Rachel for helping Pepper along her rescue journey...

**Pongo (NC)** is looking for his forever home! You can see his full story on our website. Pongo is almost 2 years old and full of GSP energy. He loves the outdoors, a good game of fetch, boating and is a great running partner. He's a very smart boy, knows lots of commands and can cuddle with the best of GSPs. His foster family has done a wonderful job helping him along his journey – thank you!

**Saban (FL)** is about 6 years old and thankfully just tested **NEGATIVE** for heartworms. His foster mom Kelsey said, "He is a happy dog and loves to play all the time. He **LOVES** to play fetch and could do it all day long! He is a big cuddler too." Saban will be in rescue for a minimum of 4 weeks so his temperament can be evaluated and he can learn how awesome rescue life is... Thank you Kelsey for fostering Saban!

**Sadie (GA)** is a very active lady. She loves going for runs and long walks which releases her energy and is helping her learn how to leash walk. She's learning to wait at the door until given permission to exit and how to sit and shake (for treats of course)! Sadie might be the most -Velcro of all GSPs and **LOVES** to cuddle. Her foster dad, Chip, is working with her on this and if she keep improving, she'll be available for adoption late August.

**Tilley (SC)** is doing very well at @Country Meadows Dog Training & Boarding Program in St. George, SC. She has completed her first 30-days, and will be there another few weeks. Tilley is learning to see people with calm energy and as leaders, and is so happy for love and freedom. Once Tilly is done with her training, she will be properly trained in dog socialization, walking on a leash, no jumping, crate trained, waiting at doors/gates before being invited in, follow me game, will know all her commands of sit, stay, okay, heel, circle left and right, down and stay, recall trained and come from motion trained. **WOW! Way to go Tilley!!!**

**Taffy (NC)** is still looking for her forever home. You can see her full story on our website. Whoever adopts Taffy will NOT be sorry – she is a gem! She's had special training at our volunteer Marty Kanupp's Kennels and graduated with honors in obedience commands and cuddling skills. She needs a home without small children, and other dogs (Taffy's past was turbulent so she needs a calmer environment where she can have all the attention). She also wants a family that is willing to give her unlimited belly rubs (and car rides- her favorite) and prefers females so needs at least one female human in the house.

**Trixie (FL)**, one of our FL hospice dogs, is doing well and loves her foster family, especially her GSP foster sibling. Thank you Bonnie for helping Trixie enjoy the rest of her life!
